**PROFESSIONAL**

Our aim - to get a **satisfied customer**. A customer, who is willing to recommend us in the future.

Our chosen technology for websites is **WordPress**, but we also do custom ASP.Net websites.

We design websites that will present ideas, concepts in easy, and clear way.

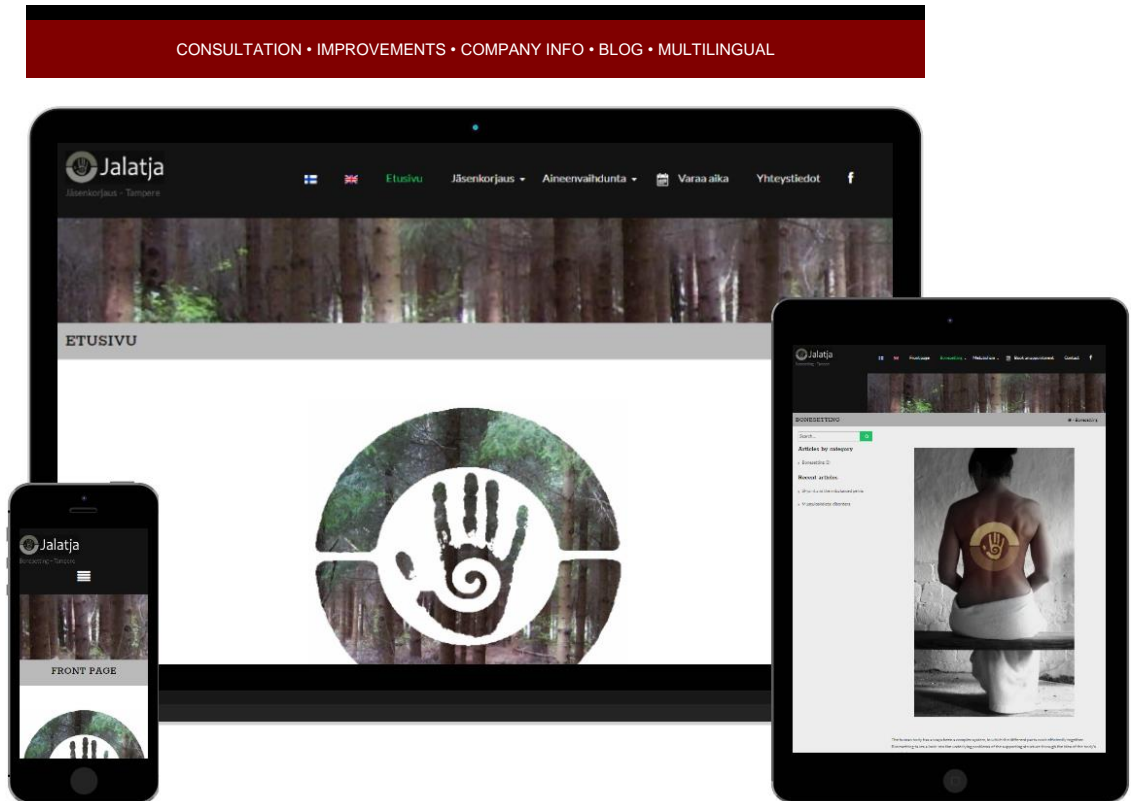

**CONSULTATION**

We offer **full-stack** services.

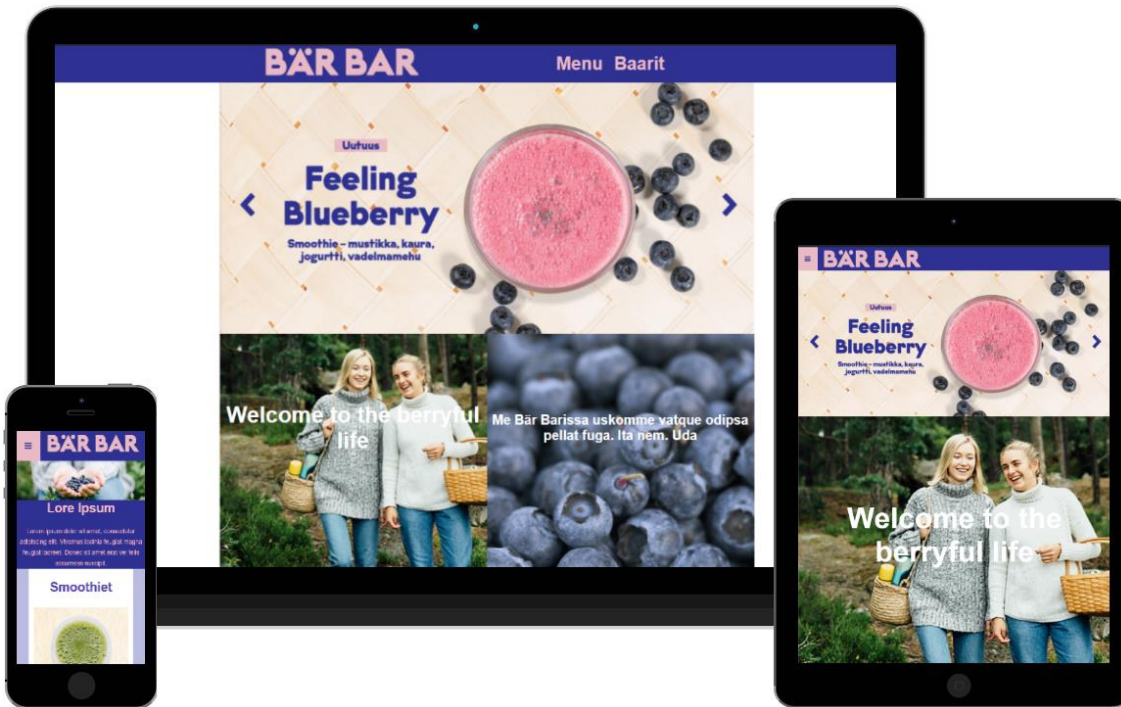

We will consult you on features to get, to make it possible for you to make the best **business decisions**.

We can also take your current website, and improve it. Perhaps making it multilingual, or re-design it better to fit your current needs.

## DESIGN

To make sure your needs are being fulfilled, we offer a **sandbox environment**. So, you can see how your project is progressing online.

We do custom designs. If you happen to already have a design, we will implement it as a responsive website.

We are a **Finnish** limited company. We offer **20 years** of IT experience to your disposal.

### QUALITY – AGILITY – INNOVATION

We are member of these distinguished associations:

- Finnish Software Industry and Entrepreneur Association (Ohjelmistoyrittäjät Ry)
- The Finnish Management Consultants Association (LJK - Liikkeenjohdon konsultit Ry)
